WORK EXPERIENCE

FREELANCE WEB & MOBILE DEVELOPER Remote / Algiers | 2023 – Present

- Designed and developed responsive web and mobile applications using Flutter, React.js, and Laravel.
- Created modern and user-friendly interfaces focused on performance, accessibility, and user experience.
- Developed REST APIs and integrated databases to ensure secure and efficient data management.
- Managed projects from requirements gathering to deployment, maintenance, and client support.
- Collaborated with local businesses to deliver customized digital solutions that improved operational efficiencies.

INTERN – FINAL YEAR PROJECT (PFE) SARL Genusurv | 2025

- Developed a regional cash management system to streamline financial operations across multiple branches.
- Designed the application architecture and implemented secure user authentication and role management.
- Built intuitive dashboards and reporting tools to facilitate monitoring and decision-making processes.
- Performed testing, debugging, and optimization to improve system reliability and performance.
- Worked closely with company supervisors to analyze business requirements and deliver tailored solutions.

WEB DEVELOPER INTERN INFSP Audiovisuel | 2022 – 2024

- Participated in the development of educational platforms and multimedia web applications.
- Assisted in designing responsive user interfaces using modern front-end technologies.
- Improved website performance, usability, and cross-device compatibility.
- Collaborated with team members on debugging, testing, and feature implementation.
- Gained practical experience in software development workflows, version control, and project management.
